## 1 Way Links

We offer 1 off linking campaigns for a set amount of 1 way links you require. This ranges from 10 one way links to thousands if required. We can also provide you with an ongoing link building partnership where we constantly build and maintain your linking campaigns all year round. With our 1 way linking packages we will provide you with a full Excel submission report once we have completed the link building. The link submission report will show you what sites are linking to your site and also the status of the link and the pagerank of that site. If you would like more information then please contact us.
